

08 World Of Today

T & M: Rio Reiser

Why they talk about love
When they don't like you
Why they talk about love
When they don't like you

That's the world of today
That's the world of today
If they talk about love
When they don't like you

They wanna fight for peace
Wanna fight for love
But war will never bring peace
Will never bring love

That's the world of today
That's the world of today
If they talk about peace
And they think of war

They wanna fight for peace
Wanna fight for love
War will never bring peace
Will never bring love

That's the world of today
That's the world of today
That's the world of today
That's the world of today
